

2012 Corporate Sponsorship Guide

Overview

Cystic Fibrosis (CF) is a life-threatening genetic disease that affects the lungs and digestive systems of approximately 30,000 children and adults in the United States. It is estimated that more than 10 million Americans are unknowing, symptomless carriers of the defective CF gene which means they are at greater risk for having a child with the disease. When the Cystic Fibrosis Foundation was established in 1955, children with CF were not expected to live long enough to attend elementary school. Today, thanks to wise investments by the Foundation in CF research and care, the median predicated age of survival for people with CF is now more than 37 years and over 45% of those with cystic fibrosis are adults.

Since its inception, the CF Foundation has become the nexus for an extraordinary community of parents, families and friends of people with CF, medical researchers and healthcare providers, donors and volunteers and more than 800 employees across the country in 75 offices—all working together to cure and control this disease.

PHESTIV-ALE a craft beer tasting is the Delaware Valley Chapter's newest event that raises awareness and funds to treat and cure cystic fibrosis. **PHESTIV-ALE** will offer an opportunity for 2000 + craft brew lovers to enjoy and sample 70+ products from the regions finest breweries while learning about a variety of beer styles.

On **Saturday, September 8, 2012** the Delaware Valley Chapter of the Cystic Fibrosis Foundation will host the 1st Annual **PHESTIV-ALE** at the Sheet Metal Workers Union Hall located at 1301 S. Columbus Blvd., Philadelphia, PA. Two sessions will be available; 12 noon to 3:00 p.m. and 4:00 p.m. to 7:00 p.m.

With the help, collaboration and support from **DrinkPhilly.com**, **PHESTIV-ALE** promises to offer beer lovers a new tradition in the Delaware Valley. The day will be highlighted by live entertainment and the chance to win a tower of beer (15 + cases), 50,000 advantage miles from American Airlines or a great sporting event experience for two in the region.

Raising Funds and Awareness to Cure Cystic Fibrosis!

B. Cepacia Policy. Because of health risks to people with cystic fibrosis (CF), individuals with CF who have had a confirmed positive sputum culture for *Burkholderia cepacia* complex **shall not attend** events sponsored by the Cystic Fibrosis Foundation. This policy is necessary because *B. cepacia* is contagious to individuals with CF. *B. cepacia* can be transmitted through casual contact or close proximity with infected individuals. *B. cepacia* infection in a person with CF can cause serious respiratory illness and, in some patients, may result in rapid decline in lung function, possibly leading to death. While this policy should reduce the risk of *B. cepacia* cross infection, there still might still be some individuals with *B. cepacia* in attendance. *B. cepacia* is not a known health risk to individuals without CF who are otherwise healthy. The CF Foundation supports research to identify new treatments for *B. cepacia*. For alternative ways to participate and for more information regarding this policy, please contact the CF Foundation at **(800) FIGHT-CF** or visit www.cff.org. Consult your CF Foundation-accredited care center physician with medical questions. **This is a non-smoking event.**
